Section F:

(F17) 52.211-9G51, Indefinite Quantity DSCR, (FEB 1996).

Note:

Paragraph (b). The minimum order quantity is established in Attachment 2 and 6 for each line item. The guaranteed minimum is established in clause 52.216-22, Indefinite Quantity as set forth below.

Section I

Note regarding Cost and Pricing data: It is anticipated that an exception to cost and pricing data exist in accordance with FAR 15.403-1(b). However, if adequate competition does not exist and cost and pricing data will be requested after receipt of proposals or during negotiations. Accordingly, cost and pricing clauses are incorporated into all applicable sections of the solicitation. (See clause (I 50C, I50D, I50F, I50M, I50N, I50P, etc.).

Note regarding Subcontracting Plans: Subcontracting Plans are not required for Small Business. However, if a Large Business submits a proposal, a Subcontracting Plan is required.

Government Furnished Materials (GFM) or Property (GFP). For this procurement, no GFM or GFP has been identified. However, should Offeror's review the requirements and discover that GFM or GFP is needed, your proposal must include a request for the tools and/or materials you identified. Several GFP/GFM clauses have been included in the solicitation. If no GFP/GFM is needed, these clauses are self-deleting.

(I67) 52.216-19, Order Limitation (Oct 1995)

Paragraph (a) minimum order quantity revised as follows:

(a) Minimum order. When the Government requires supplies or services covered by this contract in an amount of less than the amount specified in Attachment 6, minimum order quantity, the Government is not obligated to purchase, nor is the Contractor obligated to furnish, those supplies or services under the contract.

(I71) 52.216-22, Indefinite Quantity

Last sentence paragraph (d):

(d) Date when the Contractor will no longer be responsible for deliveries will be determined in accordance with Paragraph 8.0, Contract Closeout, specified in the Statement of Work.

Note for clause 52.216-22:

1. Under clause 52.216-22 (b), the 'minimum' contract value is defined as the guaranteed monetary value of the aggregate orders issued during the base period only as computed below. The minimum will not guarantee orders for any particular item or group of items. The Government will not guarantee a minimum for the option periods. The Government will compute a different minimum if more than one contract is awarded under this solicitation in accordance with the following formula:

10% of the aggregate of the extended dollar value of the minimum order quantity (MOQ) for the NSNs, computed by:

$10\% \times [\text{NSN1 price} \times \text{MOQ}] + [\text{NSN2 price} \times \text{MOQ}] + [\text{NSN3 price} \times \text{MOQ}] + \text{etc}$

The maximum contract value is defined as:

150% of the aggregate of the extended dollar value of the estimated contract value for the base period or each option period, excluding the surge portion. The estimated contract value is stated above.

(I92BB) 52.217-9G15, Flexible Options DSCR (JAN 2000) ALT I
Paragraph (a) is revised as follows:

(a) This solicitation is for an indefinite quantity with a guaranteed minimum for the three (3) year base period base year. It also includes one (1) option for two (2) years. Each option year is also for an indefinite quantity, but there is no guaranteed minimum. Each year also has a stated maximum, which applies to that year. In the event the Government orders up to the stated maximum prior to the end of any current contract year, the Government reserves the right, with the notice prescribed below, to exercise the next option year before the expiration of the current contract year. In the event the Government exercises this right, the remaining option years will be moved forward to coincide with the exercise of the option year.

Note: (I30) 52.209-4, First Article Approval-Government Testing. No First Articles have been identified for this procurement. However, Offerors should review the information in the PID, Attachment 4; BOM, Attachment 2, and/or Quality Matrix, Attachment 3 to make sure no FAT requirements exist.

Only four FSGs (FSG 34, 36, 40, and 53) from the list of NSNs in the BOM, Attachment 2 was found to be applicable to this clause. If a product is not in one of the listed groups, the Trade Agreements Act and NAFTA do not apply. For more information, Offerors should review DFARS 225.401-70.

(I215) 52.245-2, Precious Metals (PMIC) are identified in the Quality Matrix, Attachment 3. However, it is uncertain if precious metals have been determined for each NSN in the BOM. Accordingly, the Contractor is

requested to advise the Government if precious metals are subcomponents of any part listed in the BOM. If the precious metals are subcomponent parts within any specific NSNs, please provide estimated weights. The Government may also request separate pricing for the Contractor to furnish the part with the precious metals; or the Government may furnish the precious metals as Government Furnished Property (GFP). Precious Metals will be subject to negotiations. For additional information regarding the evaluation of NSNs with PMIC requirements, see Section (M2) 252.208-7000 and (I225A) 52.245-9G18.

Section K

Representations and Certifications. Contractors are reminded to fill in all clauses in Section K of the solicitation.

52.211-9G45, Electronic Contracting - Special Marking Instructions - ALT II

252.246-7000, Material Inspection and Receiving Report

BSM NSNs may be identified during negotiations, if applicable. Separate contract awards may be established for NSNs identified as BSM NSNs. If no BSM NSNs are determined to be in the BOM, then all BSM clauses cited above are self-deleting.

DSCR (OCT 2001)

NOTICE FOR DIRECT VENDOR DELIVERIES: In addition to the requirements of paragraph 5.1.6.2., Markings of ASTM D3951, markings on exterior shipping containers will contain as a minimum the NSN, requisition number, and the contract delivery order number. These markings are to be applied through stenciling or other means, directly to the exterior shipping container or included in the body of the invoice/shipping document which will be permanently affixed to the exterior shipping container. Regardless of method used, all markings must be visible to receiving personnel. When the total number of containers going to the same destination exceeds either 250 pounds (excluding pallet) or a volume of 20 cubic feet, then palletization is required except for 55 gallon drums.

NOTICE FOR SHIPMENT TO DLA STOCK LOCATIONS: Shipments to DLA stock locations must be marked in accordance with MIL-STD-129N dated 15 May 97 and AIM BC 1 with the following exception: Marking, including barcoding, and fragile marking (if required), must be on the outside container and all intermediary containers down to the specified QUP. DSCR Clause 52.211-9G22 (Sec F) applies.

D4K 52.211-9G73 PACKAGING AND MARKING
REQUIREMENTS (JUL 2002) DSCR

(a) Unless stated otherwise, commercial packaging in accordance with ASTM-D-3951 is required for CONUS shipments from the contractor directly to the customer. Commercial packaging and marking is not sufficient for vendor shipments requiring movement through the Defense Transportation System (also referred to as the Military Distribution System or DLA Depot) as the shipment could ultimately be moved via Military Air.

(b) Higher level packaging in accordance with MIL-STD-2073 is mandatory for all shipments that meet the below criteria:

Movement through the Defense Transportation System including shipments to a Military Distribution facility or depot.

CONUS shipments
FMS shipments
Hazardous material, as cited in the AID or in the Quality Requirements Matrix.

(c) Materials not considered as HAZMAT for CONUS or CONUS commercial air shipments may be considered HAZMAT for MILAIR shipments CONUS. As such, contractors/shippers shall ensure that material meeting HAZMAT definitions in DLAI 4145.3, Preparing Hazardous Materials for Military Air Shipment, is packaged in accordance with that instruction when the consignee is CONUS and the shipment will be moved through the Defense Transportation System. DLAI 4145.3 is available on the internet at:
www.dscc.dla.mil/downloads/packaging/dlai4145_3.pdf.

(d) All items shall be marked in accordance with MIL-STD-129. Hazardous items and shelf life items, as cited in the AID or in the Quality Requirements Matrix, shall be marked in accordance with MIL-STD-129 and the appropriate clauses cited in the appendix to the matrix and the contract. The contractor is required to package material in accordance with Quantity Unit Pack (QUP), specified in MIL-STD-2073 and the Unit of Issue (UI), specified in each delivery order. A packing slip shall be located in a plastic pouch on the outside of the package. For HAZMAT destined CONUS, a hard copy of the Material Safety Data Sheet (MSDS) must also be included.

(e) In the event of deployments, this clause may be invoked when shipments originally destined for a CONUS location are diverted to OCONUS destinations thereby necessitating movement of the material through the Defense Transportation System. In such an event, contractors will be notified by the Contracting Officer and an equitable adjustment will be made in the contract price as deemed appropriate.

NOTE: Applicable to negotiated solicitations. Offers that do not comply with the packaging and marking requirements as specified in Section D of this solicitation may be subject to rejection as being technically unacceptable.

SECTION E

E3 52.246-2 INSPECTION OF SUPPLIES - FIXED
PRICE (AUG 1996)

E5 52.246-11 HIGHER-LEVEL CONTRACT QUALITY
REQUIREMENT (FEB 1999)

The Contractor shall comply with the applicable higher-level contract quality requirement cited below, which is hereby incorporated into this contract:

ISO 9001 or ANSI/ASQC Q9001 when Quality Assurance Provision (QAP) 005, 006, 159, 189, 216, 222, V02, or V03 is included.

ISO 9002 or ANSI/ASQC Q9002 for any other QAPs.

DSCR NOTE to 52.246-11:

The higher-level standards referenced above shall apply unless the contractor indicates the proposal is based on a contractor's preferred quality system as identified below:

- [] Other recognized industry standard(s) (but non-ISO/ANSI/ASQC) that is equivalent to or better than applicable ISO/ANSI/ASQC standard indicated above.
Specify _____
- [] Other process control system that is equivalent to or better than the applicable ISO/ANSI/ASQC standard indicated above which has not previously been determined to be insufficient for the Government's purpose. This may include previously recognized MIL-I-45208 or MIL-Q-9858 systems which have been augmented to be equivalent to ISO 9002 or ISO 9001 respectively.
- [] An existing system modeled after
[] MIL-I-45208 or
[] MIL-Q-9858
and not previously determined insufficient for the Government's purpose.
THIS OPTION IS PERMITTED ONLY AS AN INTERIM MEASURE TO ALLOW CONTRACTORS TO TRANSITION TO ISO/ANSI/ASQC STANDARDS.

Third party certification/registration is not required nor will it be considered a substitute for the Government's right to audit/validate a contractor's quality system. ISO 9001 can be accepted for ISO 9002 requirements, however, the reverse does not apply.

MIL-STD-105 has been replaced by ANSI/ASQC Z1.4-1993, Sampling Procedure and Tables for Inspection by Attributes.

MIL-STD-45662A has been replaced by either ISO 10012-1, Quality Assurance Requirements for Measuring Equipment or ANSI/NCCL Z540-1, General Requirements for Calibration Laboratories and Measuring Equipment and Test Equipment.

[] For DRMS Recycling Control Point (RCP) term sales, the statement of account or billing document.

[] For property sold under the exchange or sale regulation, conducted by sealed bid, auction or retail methods, a solicitation/Invitation for Bid and corresponding DRMS Form 1427.

[] When the above documents are not available, or if they do not identify the specific NSN being acquired, a copy or facsimile of all original package markings and data, including NSN, Commercial and Government Entity (CAGE) code and part number, and original contract number. (This information has already been provided in paragraph (c) (6) of this clause. [] Yes [] No.)

[] When none of the above are available, other information to demonstrate that the offered material was previously owned by the Government. Describe and/or attach.

(f) This clause only applies to offers of Government surplus material. Offers of commercial surplus, manufacturer's overruns, residual inventory resulting from terminated Government contracts, and any other material that meets the technical requirements in the solicitation but was not previously owned by the Government will be evaluated in accordance with the provision at 52.217-9002.

(g) Offers of critical safety items must comply with the additional requirements in 52.211-9005.

(h) If requested by the Contracting Officer, the Offeror shall furnish sample units, in the number specified, to the Contracting Officer or to another location specified by the Contracting Officer, within 10 days after the Contracting Officer's request. The samples will be furnished at no cost to the Government. All such samples not destroyed in evaluation will be returned at the Offeror's expense. The samples will be evaluated for form, fit, and function with subassembly, assembly, or equipment with which the items are to be used. End items furnished under any contract award to the Offeror furnishing the samples can include the returned samples, and all acceptable end items will have a configuration identical to the samples. If specific tests of the samples' performance are made by the Government, the Offeror will be furnished the results of such tests prior to a contract being entered into. In addition to any other inspection examinations and tests required by the contract, the performance of the end items will be required to be as good as that of the samples submitted insofar as specific performance tests have been made by the Government and the results thereof furnished to the Offeror.

(i) In the event of award, the Contractor will be responsible for providing material that is in full compliance with all requirements in the contract or order, whether or not the Contractor has possession of applicable drawings or specifications, and despite the fact that the Government is unable to conduct in-process inspection. The material to be furnished must meet the requirements of the current contract or order, whether or not the material met Government requirements in existence at the time the material was initially manufactured or sold to the Government. The Government has the right to cancel any resulting purchase order or terminate any resulting contract for default if unacceptable material is tendered.

(j) If higher level quality requirements apply to the material being acquired, those requirements do not apply to surplus material furnished under this contract.

(b) The Government reserves the right to bilaterally add to the contract new or replacement items, by modification, at prices to be negotiated. All new requirements are subject to full and open competition for the period of time remaining on the contract prior to addition to the contract.

The Government will delete any such item from this contract after receiving the required notice. If the contractor considers another commercial catalog item as a suitable substitute or replacement for the discontinued item, it will so advise the Government at the time it advises of the discontinued item. If the Government elects to include the replacement item in the contract, the contract will be modified accordingly.

(d) If the contractor discontinues an item without replacement, the contractor will advise the Government of alternate sources of supply for a comparable item.

The following deviation is applicable to FAR Clause 52.232-25:

Paragraphs (a)(3)(iv) and (v) are deleted and replaced with the following:

(a)(3)(iv) Description, quantity, unit of measure, unit price, and extended price of supplies delivered or services performed. Unit of measure is not required for Electronic commerce (EC/EDI) contract.

(a)(3)(iv) The invoice price shall correspond to the unit of issue price specified in the contract. For example, if 12 each (EA) equals 1 box (BX) and the contract specifies EA, but you sell the item by BX, the invoice must be submitted on an EA price basis.

I199	52.233-1	DISPUTES (JUL 2002)
------	----------	---------------------

DSCR NOTE:

DSCR has in place a process to mediate two types of contract disputes: (1) contract claims filed pursuant to the Contract Disputes Act of 1978, as amended, 41 U.S.C. 601-613, (CDA), prior to issuance of a final decision by the contracting officer, that arise as a result of either a contractor or government claim, except for proposed Terminations for Default, and (2) other contract disputes, resulting from an issue in controversy, that the contracting officer determines suitable for mediation. Mediation involves a neutral, called a mediator, who assists both parties as they try to resolve their dispute voluntarily and produce a solution that is acceptable and beneficial to both. After unsuccessful negotiations over an issue in controversy have proven ineffective in either situation, the contracting officer will contact the contractor seeking to resolve the dispute through mediation. In either situation, a contractor's decision not to engage in mediation shall be conveyed in writing to the contracting officer.

Mediation undertaken pursuant to this process does not waive the statutory time limitations of the CDA, within which a contracting officer must issue a final decision on a claim filed pursuant to the CDA, as expressed in FAR Clause 52.233-1, Disputes, paragraph (e). If mediation is unsuccessful, the parties retain their existing rights under the CDA. (99140)

3. pursuant to Executive Order No. 12979, with the Agency for a decision by the Activity's Chief of the Contracting Office.

Protests filed with the agency should clearly state that they are an 'Agency Level Protests filed under Executive Order No. 12979.' (Note: DLA procedures for Agency Level Protests filed under Executive Order No. 12979 allow for a higher level decision on the initial protest than would occur with a protest to the contracting officer; this process is not an appellate review of a contracting officer's decision on a protest previously filed with the contracting officer). Absent a clear indication of the intent to file an agency level protest, protests will be presumed to be protests to the contracting officer.

DSCR NOTE:

Executive Order 12979 encourages the use of Alternative Dispute Resolution in resolving Agency-level protests. Therefore, DSCR has in place a process to mediate Agency-level protests filed pursuant to Executive Order 12979. Mediation is a voluntary process where the parties meet with a third party neutral (the mediator) to discuss their positions and open a dialogue. The mediator does not make any decisions on the dispute, but rather helps the parties explore their concerns and possible avenues for solutions. Any mediation will occur at DSCR. A trained DSCR mediator who has not had previous personal involvement in the procurement will conduct the mediation. If resolution of the protest is not reached through the mediation process, the protest will be forwarded to the Chief of the Contracting Office for a written decision on the record. If an offeror wishes to file an Agency-level protest, but does not wish to engage in a mediation, the Agency-level protest should state that the protesting party does not wish to participate in a mediation and would like a decision on the written record.

alternative dispute resolution (ADR) techniques to try to resolve the dispute. Litigation will only be considered as a last resort when ADR is unsuccessful or has been documented by the party rejecting ADR to be inappropriate for resolving the dispute.

(b) Before either party determines ADR inappropriate, that party must discuss the use of ADR with the other party. The documentation rejecting ADR must be signed by an official authorized to bind the contractor (see FAR 52.233-1), or, for the Agency, by the contracting officer, and approved at a level above the contracting officer after consultation with the ADR Specialist and with legal counsel (see DLA Directive 5145.1). Contractor personnel are also encouraged to include the ADR Specialist in their discussions with the contracting officer before determining ADR to be inappropriate.

(c) If you wish to opt out of this clause, check here (). Alternate wording may be negotiated with the contracting officer.

SECTION M

M2 252.208-7000 INTENT TO FURNISH PRECIOUS METALS
AS GOVERNMENT-FURNISHED MATERIAL
DFARS (DEC 1991)

(b) The Offeror shall cite the type (silver, gold, platinum, palladium, iridium, rhodium and ruthenium) and quantity in whole troy ounces of precious metals required in the performance of this contract (including precious metals required for any first article or production sample), and shall specify the national stock number (NSN) and nomenclature, if known, of the deliverable item requiring precious metals.

Precious Metal*	Quantity	Deliverable Item (NSN and Nomenclature)

* If platinum or palladium, specify whether sponge or granules are required.

(c) Offerors shall submit two prices for each deliverable item which contains precious metals--one based on the Government furnishing precious metals, and one based on the Contractor furnishing precious metals.

M3B 52.211-9003 CONDITIONS FOR EVALUATION OF
OFFERS OF GOVERNMENT SURPLUS
MATERIAL DLAD (APR 2002)

(a) Definition.

'Surplus material,' as used in this provision, has the same meaning as in the clause at 52.211-9000, Government Surplus Material.

(b) The Agency will evaluate an offer of surplus material when the Contracting Officer determines the Offeror is otherwise in line for award, after adding the cost of evaluation (\$200 for internal evaluation and, if applicable, an additional \$500 for each Engineering Support Activity (ESA) evaluation, plus any additional fees required for special testing and/or inspection).

(c) When an offer is for a quantity less than the solicited quantity, the contracting officer will consider the \$500 cost of issuing and administering more than one award. The contracting officer will also consider the anticipated impact on the unit price of the remaining quantity, to determine the total cost to the Government.

M10F 52.215-9G05 AUTOMATED BEST VALUE SYSTEM
DSCR (JUL 2002)

(a) The Automated Best Value System (ABVS) Score as an Element of Past Performance Evaluation.

(1) ABVS scores do not determine eligibility for award or technical acceptability. The Government shall use ABVS scores to compare past performance among offerors, not to make determinations of responsibility.

(2) To evaluate each offeror's past performance,

CONTINUED ON NEXT PAGE

DLA will assign an ABVS score to each offeror based on the offeror's past performance. ABVS scores for performance in each Federal Supply Class (FSC score) will be based on DLA consolidated performance history. An offeror may have multiple FSC scores but will have only one DLA score, which is a compilation of the offeror's FSC scores for all business conducted with DLA. These scores will be calculated monthly and remain in effect for a month. The ABVS score is a combination of an offeror's delivery and quality scores. The quality score reflects validated contractor caused product and packaging nonconformances during the rating period. For administrative purposes, the rating period excludes the most recent 30 days. The delivery score reflects all lines shown as delinquent during the rating period. For administrative purposes, the rating period excludes the most recent 60 days. For ABVS purposes, delinquent lines represent shipments not shipped and/or received in their entirety by the contract delivery date. The 30 and 60 day offset periods are NOT grace periods.

(3) Business Systems Modernization.

(i) The Defense Logistics Agency is developing and installing a new suite of commercial business software we call Business Systems Modernization (BSM). BSM will replace the old material management systems with the best of today's business applications. The first phase of BSM that will affect both DLA and our business partners is called the Concept Demonstration. This Concept Demonstration will use actual BSM software, real time data and actual transactions such as solicitations and awards. But because of the new software being tested, certain processes will change during the test and one of the most important is the change in ABVS. The collection of past performance information for certain NSNs in ABVS has been changed by the new software and will be affected by this Concept Demonstration beginning in August 2002.

(ii) Beginning in August 2002, ABVS will not collect performance information on NSNs that are included in this BSM test. The performance data for quality and delivery performance from new contract awards for these NSNs will not be used in the calculation of FSC scores. The contract line items will also not be included in the total number of contract line items on which the FSC score is based. Subsequently, the DLA score, which is a compilation of the FSC scores, will not include performance data from new awards on these NSNs. For NSNs, which are not in the BSM test, ABVS will continue to work as it does today.

(iii) In order to determine if a NSN or FSC is included in this BSM test, go to the BSM Supplier Information Resource Center, <http://www.dla.mil/j-6/bsm/SIRC/SIRC.htm>. Awards not included in the ABVS performance data will be identified by contract numbers beginning with SPMXXX or SPEXXX in lieu of SP0XXX (this does not apply to orders issued against non-DLA Basic Ordering Agreements or contracts).

(iv) This change also means that your ABVS score in BSM will be your DLA score only; the FSC score will not be visible. This initial release will provide an opportunity for DLA, our customers, and our suppliers to use the new technology and processes to improve our supply chain effectiveness. Further information is found at the BSM Vendor Information Center at <http://131.70.202.70/j%2D6/bsm/test/vic.htm>.

(4) DSCR will make negative quality and delivery data reflected in the ABVS score available to offerors by the 15th day of the month via the ABVS Website. The offeror's negative performance data will be posted before it is reflected in the ABVS score (Preview Period), to give offerors an opportunity to review and verify data. An offeror must challenge any negative data within the Preview Period to assure corrections are posted before calculation of the score. Offerors must submit challenges and substantiating evidence (e.g. invoices, DD Form 250s, modifications) to the ABVS Administrator. The 'Center' field will identify the appropriate focal point. For those identified as 'DSCR,' send challenges to:

Defense Supply Center Richmond
Attn: DSCR-OZP (ABVS)
8000 Jefferson-Davis Highway
Richmond, VA 23297-5516

Telephone (804) 279-6881
FAX (804) 279-5042

(5) Though offerors may challenge negative data

at any time, it is to the offeror's advantage to challenge negative data during the Preview Period before it has an opportunity to be reflected in the ABVS score. Accordingly, an offeror should review performance data on a monthly basis at a minimum. When a challenge is received, the ABVS score will be flagged. The flag will remain until the challenge is resolved. If an offer under evaluation involves a challenged score, then the Contracting Officer will consider the nature of the challenged data and its relevance to the acquisition as part of the award decision. The ABVS Administrator will adjust the ABVS score if the Administrator upholds an offeror's challenge. Scores created in the update cycle immediately following the determination will reflect the adjustment.

(6) When there is a discrepancy between the offeror's challenged data and the Government's data, it becomes disputed data. The Government will make every effort to resolve the discrepancy expeditiously. However, the Government is the final authority for resolution of disputed data and its use in the source selection process, and may make an award decision despite the existence of an unresolved challenge.

(b) Using the ABVS score for evaluation.

(1) The contracting officer will first evaluate offers using the FSC score for the solicited FSC in effect at the time offers are evaluated. The contracting officer will use an offeror's DLA score to evaluate an offeror without an FSC score for that particular FSC. The contracting officer may consider the volume of business on which the FSC score is based as a measure of confidence in the score's indication of performance risk. The contracting officer may choose to use the DLA score if he or she lacks confidence in the FSC score. The contracting officer also may use the DLA score if the FSC scores among offerors are relatively equal. An offeror with no performance history will not be evaluated favorably or unfavorably and will be assigned a '999.9' in the ABVS. A '999.9' is used to designate those instances wherein the offeror has no past performance history, has no history for the particular FSC or has no history for the timeframe being rated.

(2) Contractor caused discrepancies or delinquencies will be reflected in the ABVS as an indicator of past performance. Repair, replacement or reimbursement of quality and packaging defects will not provide relief of negative ABVS data. Contractor caused delivery extensions, regardless of consideration paid, will be reflected in the delivery score.

M10G 52.215-9G06 EVALUATION AND AWARD
DSCR (FEB 2000)

(a) AWARD. The Government intends to evaluate proposals and, if necessary, conduct discussions with all responsible offerors within the competitive range. The award will be made to the offeror whose proposal conforms to the terms and conditions of the solicitation and represents the best value to the Government. Therefore, award may be made to other than the lowest priced or the highest technically rated offer.

(b) RELATIVE IMPORTANCE AND TRADE-OFFS. The Government will base the determination of best value on a comparative assessment of the offerors' prices, past performance, and the other evaluation factors identified elsewhere in this solicitation. The determination of best value also considers the relative importance of the evaluation factors. All evaluation factors, when combined, are:

- [] significantly more important than cost or price. As other evaluation factors become more equal, the evaluated cost or price becomes more important.
- [X] approximately equal to cost or price; or
- [] significantly less important than cost or price. As the evaluated cost/price becomes more equal, relative importance of all other evaluation factors becomes more significant.

The final award decision may involve a trade-off among cost or price and the non-price factors. Factors that may be considered in the trade-off process include, but are not limited to:

(c) **COST OR PRICE.** The Government will evaluate the offered cost or price for cost realism, as defined in FAR 15.401, and reasonableness. The Government will add any other cost or price evaluation factors identified elsewhere in this solicitation (e.g. Buy American Act or FOB Origin transportation costs) to arrive at the offeror's evaluated cost or price. The evaluated cost or price will be used in conjunction with the other non-price factors to determine the best value to the Government.

(d) **PAST PERFORMANCE EVALUATION FACTORS.** The Government will use the past performance evaluation factors marked below in addition to cost or price and other evaluation factors specified in the solicitation. Unless indicated otherwise, past performance is significantly more important than other non-price factors. Within the past performance subfactors, ABVS scores will be weighed most heavily because of their relevance to DSCR awards. Quality history and delivery schedule compliance will be weighed more heavily than the remaining past performance subfactors. All other non-price evaluation factors specified in this solicitation weigh equally, unless otherwise indicated.

(i) Offerors may submit with their offer information on past and current Federal (non-DSCR), State and local government and private sector contracts performed by the offeror at the proposed performance location within the last three years that are similar in nature to this acquisition. Offerors electing to submit this data must furnish at least the following information: name and address of the contracting entity; the contract number; award and completion dates; the dollar value; the contract type; the items or services provided; two references, with title and phone number; and any problems encountered and the corrective action taken by the offeror.

(ii) By submitting past performance information, the offeror agrees to permit the Government's representatives to contact the listed references and inquire of the offeror's performance. If more than three contracts are identified, the Government reserves the right to randomly select and limit its review to three contracts. In addition to the information provided, the Government may consider information obtained from other sources when evaluating the offeror's past performance. Offerors will be given the opportunity to discuss negative past performance information obtained from references if the offeror has not had a previous opportunity to comment on that information.

(iii) In addition to the information above, DSCR will use the Automated Best Value System (ABVS) to evaluate quality and past performance on DLA awards (see 52.215-9G05).

(iv) Offerors with no past performance history (whether internal or external to the Federal government) will not be evaluated favorably or unfavorably.
